We didn't get any other quotes, though I placed the emails soliciting quotes, the email delivery receipts and a procurement note in the file (explaining the purchase rationale). I left the file (a blue folder - doesn't have permanent labels yet - but yellow sticky says "LMID Procurement") with Joyce last week. It may be in my inbox or either Joyce or Flor would have it.

Hi Reva,

Can you email me the other quotes you received so that I can attach them to the RTP? I'll send the completed RTP to Ruben to process today.

I'll get back to you on when Sheila can start the project too. I just need Ruben's blessings to move forward.

Marleen

Marleen: the quote is below. Thanks so much for setting this up. Just let me know when it's okay for me let Sheila know that she can start working on the project.

Thanks again,

Subject: LMI Data Request

Hi Reva,

I was able to get a cost estimate for the additional Healthcare data you requested. With that data and the original request for the top 12 occupational data with employer information and the Census data, the estimate sits at \$4325. As soon as you give me the ok, we will start on compiling the data and I can get a detailed cost breakdown to you. If we are able to get your approval early next week I anticipate a deliverable by Friday, November 3.

I am off the rest of today, but feel free to call me on Monday if you have any further questions or concerns. Have a great weekend.
